Letter No. C. 208-101 dated the 29th July. 1942 from the D.P.H. forwarding the leave application of Dr. V. Narasimha Murthy.

32. Dr. V. Narasimha Murthy, Dt. Health officer was on privilege leave for two months and 22 days from 27-7-1941 for reasons of ill health. The leave granted to him expired on the 18th Oct 1941. He has now requested that the leave granted to him may be extended for some more time for recouping his health. He has produced medical certificate in support of his request. As he has no leave at his credit, any leave to be granted to him in continuation will be leave without allowances. He therefore requests that the period of his deputation to America in 1936-38 for higher Studies on a fellowship granted to him by the Rockfeller Foundation, may be treated as on duty and that the leave thus

FINAL NOTE BY THE MINISTER FOR LOCAL SELF-GOVERNMENT AND PUBLIC HEALTH.

Subject:—

Proposal to treat the period of Fellowship in America, of Mr. Narasimha Murthi as on duty.

****

64 Mr. V. Narasimha Murthi, Second Class Health Officer, was granted privilege leave of two months and twenty two days with effect from the 27th July 1941 for reasons of ill-health. The leave having expired on the 18th October 1941, he has applied for an extension of his leave by 8 months on medical grounds. He requests that, as he has no leave at his credit and as any leave to be granted to him will have to be leave without allowances, the previous period of his fellowship in America may be treated as on duty so that he may have the benefit of leave with allowances.

65 In Government Order No. G. 3704-5/P.H. 8-36-13 dated the 30th November 1936, Mr. Narasimha Murthi was granted one year's leave as detailed in the margin for enabling him to proceed to America on a fellowship granted to him by the Rocke Feller Foundation. On his applications from America, he was further granted furlough on half average salary for 11 months and 22 days, as a special case. As he was not deputed to America by Government for any special training called for in the absolute interests of the Department, the period of his fellowship could not be treated as on duty and in view of his studies being, however, considered in the interests of the Department, he was shown certain concessions by way of granting special furlough referred to above. I do not see any reason to view the case differently now. On merits, Mr. Narasimha Murthi does not deserve the grant of any further concession. But in view of ~~the~~ his hard circumstances at present, I consider that the period of one year's leave sanctioned to him in notification dated

	Months	Days

(E) Dr. V. Narasimhalu Chetty, Health officer, in his letter dated the 3rd Oct 1941, addressed to the D.G.H. requested that he might be granted 8 months' leave. But he was advised to apply for leave in the prescribed form. While doing so, he has not mentioned (K) the period of leave required by him. Even (L) the 8 Months' leave asked for by him, expired on the 18th June 1942. It is ascertained that Dr. Narasimhalu Chetty has not yet returned to duty and will be extra during his leave. Any leave to be sanctioned to him after 11th March 1942, will be leave without allowances.

Final Note by the Minister for Local Self-Government and Public Health.

Subject.—

Proposal to treat the entire period of deputation of Mr. V. Narasimha Murthy, Health Officer, to America, as on duty.

With the gracious approval of His Highness, a period of one year's leave out of a total of 23 months and 22 days, sanctioned to Mr. V. Narasimha Murthy, Health Officer, for proceeding to America on a fellowship granted by the Rockfeller Foundation, was recently ordered to be treated as on duty, without his being entitled to any claim to arrears of pay.

Mr. Narasimha Murthy has once again represented that the entire period of his deputation to America may be treated as on duty with the benefit of earning leave and arrears of pay.

It is proposed to sanction the request of Mr. Narasimha Murthy. The Dewan and other Ministers agree to the proposal and it is submitted for the gracious approval of His Highness.

Sir,

With reference to your letter Camp No.204/P.H. dated 9th October 1941, I have the honour to inform that all that is possible with the existing cyanogas staff (i.e.,) consisting of the 12 Assistant Sanitary Inspectors and one Sanitary Inspector already sanctioned are being utilised in full. It is found impossible in a State spread epidemic as the present to attend to all the places with the limited staff. I request that you would be good enough to obtain orders of Government sanctioning the increased staff consisting of Assistant Sanitary Inspectors and Supervising Officers requested in this office letter No.C.79-5 dated 3-7-1941.

I request you to kindly refer to this office letter No. C.8 dated 13.8.1941 in which I requested the sanction to the appointment of a Probationer to fill up the vacancy caused by the grant of long leave to Mr.V.Narasimhamurthy, so that the Second Class Health Officer provided for to assist the Superintendent may be posted to carry on the work in the Bureau of Epidemiology. This Officer is the only person that is available at present in the office to arrange for the control of plague all over the State. I request that you may be so good as to obtain the sanction of Government for the appointment of the Probationer.

Letter dated 3-10-1941 from Dr.V.Narasimha Murthy, to the Director of Public Health in Mysore, Bangalore.

I returned here from Madras yesterday evening after undergoing a very serious abdominal operation. I am still extremely to
week and am absolutely unable to attend/any serious mental or physical work. Lt.Col.Pandullaiwho operated on me has advised me to take rest for atleast eight months more. I shall therefore, be much obliged if you can kindly move the Government to kindly grant me whatever leave I am entitled to, for this period of time. Since, I am unable to attend to any serious work in my present state of health, I shall be availing myself of this leave in anticipation of sanction. I shall be much obliged if you can kindly let me know whether the leave I had applied for before has been sanctioned. I have written to day to the Vice-President, K.G.F. Sanitary Board regarding the extension of my leave by another eight months.

In this connection, I wish to bring to your kind notice, (as I had represented to you in person some time ago) that I had to take about 2 years leave when I had gone to America, on the Rockfeller foundation fellowship and as such I have not got much leave at my credit to take now. I shall, therefore, be much obliged if you can kindly move the Government to treat the period of my fellowship as on duty, as it was done in the case of Mr. Krishnaswamy of the Bureau of Sanitary Engineering, so that I may have this leave to take at my credit now. In view of the special circumstances I told you regarding my illness, severe post operative complications I had etc., I hope you will be good enough to make a favourable recommendation to Government and kindly help me to have this leave to my credit.

Feeling ever grateful for all the generous considerations you have been showing me,

Memorandum No.C208-89/January 21st 1942,from the Director of Public Health in Mysore, Bangalore, communicating that my period of deputation to America cannot be treated as on duty.

I beg to submit this representation for the kind reconsideration of the orders mentioned above and request that my case may kindly be sympathetically considered especially in view of my present condition of health and the period of Fellowship be treated on duty as it has been done in the case of some of my collegues in the Department who were on deputation to U.S.A under identically similar conditions and thus make the leave I had to take then available for my use in my dire need at present.

The leave applied for is very necessary in my present state of health as advised by Lt.Col.K.G.Pandalai, the Surgeon who operated on me.

A detailed representation submitted to the Director of Health through the Vice-President,KG.F. is herewith enclosed for kind perusal.

Dated 18 February 1942.

(on leave)

REPRESENTATION.

I may be kindly permitted to state the following few facts as as a basis for consideration of my request to kindly treat the period o f my fellowship to U.S.A. as on duty.

2. At the request of the Mysore Government, the Rockefeller Foundation were pleased to grant me the Fellowship in appreciation of good work done by me in the Department with the specific object of getting me trained in higher public health work for the benefit of the State and the courses I took such as Bacteriology, Epidemiology, Immunology, Filterable Viruses, Public Health Laboratory practice etc., and the training I received during the period of my fellowship were accordingly as per the specific requirements of the Department.

3. As to how best I acquitted myself during the period of my fellowship may be seen by the facts that

(a) in recognition of the scientific work donn I was elected a member of several of the scientific societies in U.S.A and was presented with their golden keys.

(b) in several of their periodical progressive reports the Rockefeller Foundation authorities were pleased to grade my work as "Excellent",

& (c) in one of the letters written by my professor in the Johns Hopkins University, it is stated as follows

" I feel that Dr.Moorthy is one of the very best students from India we ever had had in the School. He seems to have an unusual amount of research ability and is very industrious. He is an unusually fine student and one who should be encouraged in every way!

4. Though to start with the period of my fellowship was only for one year, in recognition of the very good work done by me during that period, it was extended by another year when I took the degree of the Doctor of Public Health of the Johns Hopkins University, this being the highest degree in public health awarded by the University. With the extension therefore of my fellowship, the period of my leave stood correspondingly doubled.

5. The results of my research work have been published in the form of about thirty papers in very well known Journals both in India and abroad. Leading editorials, abstract and reviews of these papers have appeared in a number of journals in India and abroad and some of the original observations made have been incorporated in most of the recent standard text books on Medical Zoology, Nematology, Parasitolog and Topical Medicine and the practical utility of the results obtained by these scientific investigations I was ordered to pursue can be judged by the fact that :

(a) the guinea-worm infection is practically completely controlled in the Chitaldrug District, Mysore State.

(b) the Biological method of control of guinea-worm is at present being extensively tried with very good results in the severaldistricts in the Madras Presidency and is going to be shortly introduced in the Bombay Presidency, Kashmir State and possibly in the other guine-worm infected areas in India and abroad also.

(c) the idea of using copopedocidal fish in the control of helminthic infections successfully worked out for the first time in the Chitaldrug District is at present being extensively tried in the control of Tetrameres infection in Canada and of schistosomiasis, fluke and bilharzia infection in Rhodesia and South Africa.

(d) the success achieved in inducing guinea-worm infection in dogs under experimental conditions has now made it possible to work out a curative remedy for not only guinea-worm infection but also other filarial infection

(e) based on the interesting observation made while conducting the epidemiological and bacteriological investigations of typhoid fever in Bangalore City that nearly 50% of the typhoid cases occurred in the age group between 5 to 15 to years, it was suggested that the typhoid in Bangalore City can be appreciably diminished if the school going children are protected every year before the typhoid season starts with a potent typhoid vaccine preferably prepared from local strains isolated from sewage and chronic carriers.

6. As to how best I have acquitted myself in the discharg of the several responsible duties entrusted to me since my return to India after completing the period of my fellowship in U.S.A can be judged by the following statements made byDr.W.C.Sweet regarding my work and also by a kind perusal of the periodical, daily or weekly reports submitted by me.

" After his return from the U.S.A.,Dr.Moorthy was for some time actively engaged in conducting certain bacterilogical and epidemilogical investigations on the typhoid situatio

situation in Bangalore City. In this investigation, which is published as a special report by the Government of Mysore, he made several valuable observations which if pursued further are likely to shed a flood of light not only on the typhoid problem in Bangalore but also in the rest of India as well.

Working as Bacteriologist, in the State Public Health Laboratory, Dr.Moorthy has been handling the routine, bacteriological, serological and pathological work of the Institute. He has also had experience in the manufacture of Therapeutic and Prophylatic vaccines. With his keen desire for research work and his natural scientific bent of mind, Dr.Moorthy has always been trying to make a scientific and careful study of even the routine materials that are sent to him for ordinary examination and report.

I have a very high opinion of Dr.Moorthy's ability to carry on original research and have no hesitation in recommending him for any research post. I have always found that any encouragement given to him is more than repaid by the results obtained by him."

7. Ever since I joined service I have been sincerely and conscientiously devoting myself in the wholehearted discharge of the several responsible duties entrusted to me subordinating health and personal comforts to my work, and the serious break down in my health atpresent is to a large extent attributable to the stress, strain, worry, constant anxiety and the risks involved in the proper discharge of these duties.

8. That my prespects have not so far been improved much after my return from U.S.A. on Fellowship is seen by the fact that my collegues who started service with me on the same day have not only been drawing a higher salary than I but in addition have all the leave at their credit.

9. As I had already stated in my previous representations in the case of several othef officers in the Department who were sent on fellowship to U.S.A under identiaally the same conditions, the Government were pleased to treat the Fellowship period as on dyty, the latest instance of its kind being the case of Mr.Krishnaswamy of the Bureau of Sanitary Engineering.

10. In view of the facts stated above I request that the Government may kindly be moved once again to genemously reconsider their decision in the matter and kindly treat the period of my fellowship as on duty and thus release the"leave" I had to take then for my use in my dire need at present.

Representation.

I may be kindly permitted to state the following few facts in justification of my request to kindly treat the period of my fellowship to U.S.A as on duty.

(1) Ever since I joined service I have been sincerely and conscientiously trying my utmost to devote myself wholeheartedly in the due discharge of the several very responsible duties entrusted to me, sacrificing my health and personal comforts and the breakdown in my health at present is at least partly attributable to the stress, strain, worry, constant anxiety and the risks involved in the proper discharge of these duties.

(2) The fellowship was obtained at the request of the Nepal Government and it was given to me in appreciation of the good work done by me in the Department with the specific object of getting me trained in higher Public Health work, for the benefit of the State and the Centre. I took and the training received during the period of my fellowship were as per the specific requirements of the Department.

(3) As to how best I acquitted myself during the period of my fellowship may be seen by the fact that:

(a) in recognition of the scientific work done I was elected a member of several of the scientific societies in U.S.A and was presented with their golden keys.

(b) in the several of their periodical progressive reports the Rockefeller foundation authorities were pleased to grade my work as "Excellent".

and (c) in one of the letters written by my professor in the Johns Hopkins University to the Rockefeller foundation he was pleased to state as follows:

"I feel that Dr Moorthy is one of the

Very best students from India we ever had in the School. He seems to have an unusual amount of research ability and is very industrious. He is an unusually fine student and one who should be encouraged in every way".

(4) Though to start with, the period of my fellowship was for only one year, in recognition of the very good work done by me during that period, it was extended by another year when I took the Degree of the Doctor of Public Health of the Johns Hopkins University, this being the highest degree in Public Health awarded by the University. With the extension therefor of my fellowship - I had to extend my ~~(5th) leave~~ leave also by another year.

(5) The results of ~~My~~ scientific work done by me so far have been published in the form of about thirty papers in Very well known journals both in India and abroad. Leading editorials, abstracts and reviews of these papers have appeared in a number of journals both in India and abroad and some of the original observations made have been incorporated in most of the recent Standard text books on Medical Zoology, Nematology, Parasitology and Tropical Medicine. The practical utility of the results obtained by these investigations can be judged by the fact that:

(a) The Guinea-worm infection is practically completely Controlled in the Chitaldrug District, Mysore State.

(b) The Biological method of Control of Guinea-worm infection is at present being extensively tried with very good results in the several districts in the Madras Presidency and is going to be shortly introduced in the Bombay Presidency, Kashmir State and possibly also in the other Guinea-worm infected areas in India and abroad also.

(c) The idea of using Cyclopicidal fish in the Control of Helminthic infections, successfully worked out for the first time in the Chitaldrug District is at present being extensively used in the Control of Dehawares infection in Canada and Schistosomiasis, and fluke diseases and Bilharzia infection in Rhodesia / South Africa

(d) The success achieved in inducing guinea-worm infection in dogs under experimental conditions has now made it possible to work out a curative remedy for not only guinea worm infection but also other allied filarial infections.

and (e) Based on the epidemiological investigation made nearly 50 percent of the typhoid cases in Bangalore occurred in the age group 5-15 yrs. It was suggested that by effectively immunizing the school going children every year by means of potent typhoid Vaccine, the incidence of typhoid in Bangalore city can be appreciably diminished.

(6) The nature and the amount of work done by me in the Public Health Institute as Bacteriologist, on plague epidemic work for nearly a year as special plague Officer in charge of several plague epidemics, and more recently in the Kolar Gold fields as Medical Officer of Health there, can be judged by a kind perusal of the periodical, daily or weekly reports submitted.

(7) That I have not so far been materially benifited in any way by going to U.S.A on fellowship is seen by the fact that my colleagues who started service with me on the same day and who have not had the benifit of the foreign training have not only been drawing a higher salary on account of they alone being given an advanced increment but also have all the leave they have earned at their credit.

(8) As I had already stated in my previous representation in the case of several other officers in the Department who were sent on fellowship to U.S.A under identically the same conditions as in my case, the Government have been pleased to treat the period of fellowship as on duty; the latest instance of its kind being in the case of Mr Krishnaswamy of the Bureau of Sanitary Engineering.

In view of the facts stated above I request that the Government may kindly be moved once again to generously reconsider their decision in the matter and kindly treat the period of my fellowship to U.S.A also as on duty and thus make the leave I was forced to take then available for my use at present, especially in consideration of my present State of Health.

Dear Mr V. Urs, C.S.

In inviting reference to correspondence ending with Government Notification No. G. 8183/P.H. 13-37-21 dated the 5th April 1938, sanctioning leave without allowances to Mr. V. Narasimha Murthy, Health Officer, for study in America on a fellowship granted to him by the Rockfeller Foundation, I am desired to enquire what the total cost would be if the period of his deputation to America were treated as on duty. I am also to enquire about the total period of leave he would be entitled to on 27th July 1940 on this basis.

I am to request the favour of an early reply.

SECY. LAW DEPT. 17 APR 1942 GOVT OF MYSORE

Dear Mr. Vedavyasacharya,

With reference to your D.O. letter No. 3560 C.B. dated 9th April 1942 I write to state that leave without allowance sanctioned to Mr. V. Narasimhamurthy, Health Officer, in Government Order dated 5th April 1938 was subsequently -- treated as furlough on half average salary vide G.O.No. G 2989-90/P.H. 13-37-26 dated 28th September 1938 and leave allowances were paid on that basis.

If the period of his deputation to America were to be treated as on duty, then Mr. Narasimhamurthy would be -- entitled to his full pay with the increments as they fell due for the whole period. The additional cost would be his total salary for the period less leave allowances -- already drawn by him. This works up to Rs 2025/- as shown below :-

Total salary admissible for the period	Rs 4,915- 5-0
Total leave allowances drawn for the period. . . .	2,890- 5-0
Difference	2,025- 0-0

If the whole period of his deputation from 20-8-36 to 10-8-38 is treated as on duty he would have at his credit on 27th July 1941 privilege leave for 3 months combined with furlough on half average -- salary for 1 year, 5 months and 6 days. The maximum leave that can be granted at a time and leave allow--ances admissible during furlough are regulated under Articles 201 and 208 M.S.R. respectively. If any portion of the furlough referred to above is to be granted in terms of full average salary the conditions imposed under Article 209 M.S.+R. will have to be satisfied.

Yours sincerely,

DEWAN'S OFFICE
10 JUL. 1942
NO. M 25

168/CM

Submitted for favourable orders.

9th July 1942.

Dear Sir,

I shall be glad if the utmost concession possible is shown in this case

When I had interviewed the Dewan about a month ago in connection with my leave, the Dewan was pleased to tell me that one year of the period of my deputation would be treated as on duty. I was therefore naturally under the impression that the leave I had taken during this period would be released and the same would be made available in my dire need at present. But to my great surprise, I find that in Govt. Notification No.4615/C.B.68-41-10 dated 27/29th June 1942 only 8 days' privilege leave, four months and twelve days furlough on half average salary and the rest leave without allowances has been sanctioned. In other words, practically all the leave that was released has been set off against the leave granted during the second year of period of my deputation in the interest of Government Work, and only a very small amount of leave is now made available for my use at present.

There has been a serious set back in my health and I am therefore compelled to extend the leave by 8 more months.

In the above circumstances, it will cause me considerable hardship if the two years of my deputation are not treated as on duty and the leave thus released is made available for my use now.

As I had personally represented to the Dewan, I have a big family and this illness has financially crippled me to the core and I can only ~~only~~ say that I shall be great obliged

SECY. LAW DEPT. 10 JULY 1942 GOVT OF MYSORE

obliged for any generous considerations shown to me in my present state of health.

In this connection I may be permitted to point out that Section 198 (a) read with Article 201(a) M.S.R. provides the grant of 18months' leave on medical certificate (unconditionally) If the entire period of my deputation cannot be treated as on duty, I request that the leave admissible under the articles of M.S.R referred to above may atleast be granted to me as early as possible.

I am herewith enclosing a copy of the detailed representation submitted to the Director of Health in the matter. I shall be much obliged if you kindly bring this to the notice of the Dewan. Since there has been a very serious set back in my health for the past one month I am practically bed-ridden and am ~~practice~~ extremely sorry I could not seek an interview and represent my grievances personally to the Dewan.

Lying as I am between life and death I cannot say anything more than that I shall be extremely grateful for any generous considerations shown to me.

Thanking you,

Yours sincerely,

Sir,

With reference to Govt.Notification No.4615/C.B.68-41-10 dated 27/29th June 1942 sanctioning me 8 days' privilege leave, 4 months and 12 days furlough on half average salary, I beg to bring to your kind consideration the following few facts for favour of recommending the kind reconsideration of the orders passed.

In the respresentation I had submitted along with my leave application, I had requested;

(a) that the entire period of 2 years of my Fellowship to America be treated as on duty,

and (b) that I may be given the benefit of the arrears of salary, increment etc..

This concession as I had stated in my representation was the one that had been shown to several officers in the Department and all that I had asked for was only to show the same considera-tio n that had been shown to others. The main object of this request was to see that the leave that I was forced to take under the circumstances stated in my representation might be released and be made available for my use in my dire need at present.

In G.O.No.4215-16/C.B.68-41-9 dated 2nd June 1942 Government are pleased to treat only one year of my Fellowship as on duty without giving me even the benefit of the arrears of salary, ordinary increment etc.., though in the case of the other officers of the Department all these benefits had been shown. The present G.O. given naturally an impression that by treating one year of my fellowship as on duty. The leave I had to taken then would automatically be released and be made available for my use at present.

After a patient waiting for over 10 months it comes to me as the bolt from the blue that practicalyy all the leave that was released during the first year of my fellowship period has been adjusted towards the leave

leave I was forced to take during the second year of my fellowship. As I have stated in my ~~present~~ previous representation the period of my fellowship was extended by the Rockefeller Foundation at the request of the Government of Mysore, because of the very good work turned out by me during the first year of my fellowship. I had not realised then that this was the penalty I had to pay for my good work during the period of myfellowship. It is needlss to add that the main object of the G.O. is defeated when even the little leave that ~~is~~ was released is adjusted and only a fee months' leave is made available for my use now.

When the Government were pleased to view my case sympathetically and give me anticipatoy ~~xxxxxx~~ furlough to enable me to go on a Fellowship to the U.S.A, the need for such consideration is now far more keenly felt since I am suffering from a serious illness and it is purely on midical grounds that I have asked for the leave.

In this connection, I may point out that Article 198(a) M.S.R. read with article 201(a) provides for the grant of 18 months' leave unconditionally on medical certificate and as such there may not be any audit objection for this also.

As I have already ~~xx~~ stated in my previous representation that while other officers of the Department deputed to America were treated as on duty and were given full salary with all leave in addition, I was obliged to exhaust all my leave in the interest of Government work and was not allowed full salary. Besides, my collegues attending to normal duties at Head Quarters had the fortune of getting advance increments with all leave reserved whereas I could not even draw even the usual ordinary increment being forced to take leave during the period of deputation when I cared more for my duty than my health.

I may also state that I have ~~xxx~~ submitted several daily, fortnightly, and quarterly reports of my work and the fact that no adverse remarks have been made so far on any of them by any of my official superiors is, I think, sufficient to indicate that my work in the Department has been satisfactofy. It may not be out of place to bring to your kind remembrance that on my return from Bombay you

you were pleased to tell me that on account of the very good work done by me in the Department that you had recommended for an advance increment being sanctioned to me as in the case of my collegues. I may further add that I am sure that every one in the Public Health Institute will testify to the fact that, if at all anything, I took more than the usual interest in my work and it is this over work that has been in no small measure the contributory cause to the present break down in my health.

In the above circumstance it is difficult for me to understand why even the ordinary concession of the leave admissible under M.S.R (Vide articles 198(a) and 201(a)) viz., 18 months leave exclusive of the privilege leave is denied to me.

Lastly I once again appeal to you that smitten by cruel fate, placed in this helpless condition and struggling as I am between life and death, my case may kindly be recommended to Government for generously reconsider the order of 29th June 1942 and kindly to treat (1) the full two years of my period of fellowship as on duty, (2) to make the leave thus released available for use in my dire need at present and (3) to enable me to draw the arrears of salary, increments fell due during the period of deputation etc.,

Dear Sir,

I beg to enclose herewith a copy of the representation submitted to the Director Of Public Health in connection with the reconsideration of the Government Order No.Notification No.4615/C.B.68-41-10 dated 27/29th June 1942 sanctioning 8 days privilege leave, four months and twelve days furlough on half average salary and the rest of the period as leave without allowances.

Since there has been a serious set back in my health I am practically bed-ridden and I am extremely sorry, I could not come and personally represent my grievances to you. I hope you will kindly pardon me for the same.

I shall be much obliged if you will kindly bring this representation to the kind notice of the Minister in charge of Public Health Department.
